SUMMARY

I'm a UX Developer. I deigned UI for 10+ years, but love developing.

My process goes from sketches, whiteboards to user flows, and I use Sketch. I'm a fan of HTML/CSS. I enjoy working in Illustrator and Photoshop. git is the greatest. I like reading Designer News. I love the Lakers and catching the latest in mobile, at Pptrns.

OBJECTIVES

I'm currently a UX developer at AppOne. I've previously worked with Handmade Mobile, 2Bit Circus, and Netflix

In my free time I work on GravitiWorks, a magnet tech solution company I co-founded.
